Registration deadline: April

The objective of the Summer and Fall Recreational Soccer Program is to develop basic age appropriate soccer skills and create an environment in which to learn the basic principles of soccer. Volunteer coaches and parents will create a fun, learning environment for the players. Enjoyment of the game will take precedence over competition. Coaches will have a basic understanding of soccer and be able to teach age appropriate soccer skills.

The objective of the Traveling Soccer Program is to develop age appropriate soccer skills, in a more intensive and competitive environment. Through age 10, league scores and standings are not recorded and primary focus is on technical skill development. At age 11, scores and standings are recorded and tactical skills development is emphasized in addition to advanced techniques. As players get older, competitive environment increases.

***Come join the fun!***
