

River Falls Wildcat Soccer

November 17, 2007

Dear Resident,

The River Falls Wildcat Soccer Association (RFWS) has been reviewing the possibility of renovating the existing soccer fields along Golf View Drive. As a property owner adjacent to, or near, the soccer fields we would like to invite you to an informational meeting to be held 7:00 PM, Thursday, December 13, 2007, at the Meyer Middle School Cafeteria.

The purpose of the meeting is to communicate the RFWS plans for renovating the fields (improved off street parking, drop off points, irrigation, drainage, etc.) and to get your ideas and feedback. We are currently only in the Conceptual Phase and are gathering information from City Staff, Park and Recreation Board, and the neighborhood. Attached is a concept of the proposed improvements.

We are excited for the possibility to make a substantial improvement to the condition of the fields and parking. We know this will have a direct impact since you are a neighborhood owner and welcome your suggestions. You will see some activity on the soccer fields while we do preliminary site investigation of soils and perform survey work in order to be prepared to move forward in the future with the City's approval.

Your participation is important to the RFWS and the success of this project. Please feel free to contact Jeff Bump at 426-6505 or Steve Dodge at 425-8192 with questions or concerns that you may have before we meet.

For more information about this proposal and RFWS in general, see our website www.pressenter.com/~rfsoccer/.

Sincerely,

Jeff Bump
President
River Falls Wildcat Soccer
